

Recommendation Letter
To whom it may concern

It is a great pleasure to recommend Mr. **Seifeldin Zook** to apply for your prestigious scholarship. I knew him when he took my teaching course "**Finite Element Method And Its Application**". he was one of the graduate students to study the course. In the course study, every time he listened the classes seriously and wrote the class notes. He liked to ask the questions related to the course study. He worked very hard for the course study and achieved the highest marks in the course study

As Mr. **Zook** showed the interest in the research of numerical simulation. I asked him to do some work on "**Numerical analysis of Split Hopkinson Pressure Bar**". He proved to be a hard worker and gifted researcher. He finished the work excellently and promote the research work a lot. Besides he obtained the very good scores in his master degree study, his performance is excellent. He is honest with decent characteristics and has a scientific and an arranged mind which enables him to provide a very useful work when pursuing his advanced degree study.

I am highly confident that with the level of motivation, scientific knowledge and dedication that he will continue his success in your program as well.

So, I strongly recommend Mr. **Zook** to join your research group.

Sincerely yours,

Professor Chengyi Huang

School of Mechanical Engineering and Automation.

Wuhan Textile University.
